Chapter 2 - Issue And Redemption Of Debentures

Short Answer Questions

Question 1:

What is meant by a Debenture?

Answer:

The word Debenture is derived from a Latin word 'debere' which means to borrow. A debenture is issued in the form of a certificate under the seal of a company and containing a contract for the repayment of the principal sum after a fixed period of time and payment of interest at regular intervals, generally half yearly. Debentures are issued by a company for acquiring long-term borrowings.

Question 2:

What does a Bearer Debenture mean?

Answer:

When a company does not maintain any record of the debenture holders and the debenture is transferable mere by delivery, then the type of the debenture held by the holders is termed as Bearer Debenture. Interests on such debentures are paid to the persons who produce the interest coupons that are attached with these debentures in a specified bank.

Question 3:

State the meaning of 'Debentures issued as a Collateral Security'.

Answer:

The term collateral security means additional or secondary security in addition to the primary security. Sometimes, when a company takes loan from a financial institution, then besides the primary security, the company may issue debenture for additional security (as collateral security). The lender who receives debenture as collateral security is not entitled for interest on these debentures. If any default is made by the company in paying back the principal amount (i.e. the loan amount) or interest on the loan, then the lender has the full

right to recover his/her dues from the sale of primary security. But, if the primary security is not sufficient to recover the amount of the debt, then the debentures issued as collateral may be used for recovery of the remaining amount.

Question 4:

What is meant by 'Issue of debentures for Consideration other than Cash'?

Answer:

If a company purchases assets from its suppliers or vendors, then instead of paying them in cash the company issues debentures to them. This is known as issue of debenture for consideration other than cash. The issue of debenture for consideration other than cash serves the purpose of both the vendor as well as of the purchaser (company). From the purchaser's point of view, purchasing an asset against the issue of debentures requires no additional cost for raising loans or arranging funds immediately. On the other hand, the vendor gets interest on the amount of debentures received. In this case, payment is deferred by issue of debentures and interest is paid for time lag payment. Debentures may be issued at par, premium or discount to the vendor.

Accounting treatment for Issue of Debentures for Consideration other than Cash

1. For purchase of Assets:		
Assets A/c	Dr.	
To Vendor A/c		
(Asset Purchased)		
2. For Issue of Debentures a. If debentures are issued <u>at Par</u> :		
Vendor A/c	Dr.	
To Debentures A/c		

(Debenture issued to Vendor at par)	
b. If debentures are issued <u>at Premium</u>	
Vendor A/c	Dr.
To Debentures A/c	
To Securities Premium A/c	
(Debenture issued to Vendor at premium)	
c) If debentures are issued <u>at Discount</u>	
Vendor A/c	Dr.
Discount on Issue of Debentures	Dr.
To Debentures A/c	
(Debenture issued to Vendor at discount)	
Question 5:	
What is meant by 'Issue of debenture at discou	nt and redeemable at premium?
Answer:	
When debentures are issued below its par value (or higher than its par value, then it is termed as issued premium. The difference between the issue price is	e of debenture at discount and redeemable at

issue of debenture.

Example:

A 10% debenture of Rs 1,000 is issued at 5% discount and is redeemed at 10% premium.

Bank A/c Dr. 950

Discount on Issue of Debenture A/c Dr. 50

Loss on Issue of Debenture A/c Dr. 100

To Debenture A/c 1,000

To Debenture Redemption Premium A/c 100

(Debenture issued)

Total loss = Payment made at redemption – Amount received on issue of debenture 1,100 - 950 = Rs 150

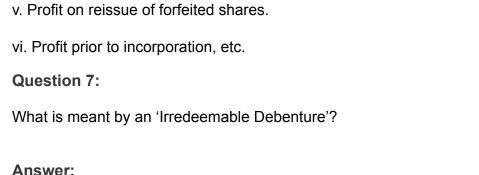

Question 6:

What is 'Capital Reserve'?

Answer:

Capital Reserve is a reserve that is created out of capital profits i.e. gains or profits arising from other than the normal activities of business operations i.e. activities other than sale or purchase of goods and services. This reserve is utilised to meet future capital losses, if any, and to issue bonus shares. It cannot be distributed as dividend among the share holders. The Capital Reserve is generated out of the following activities:

- i. Premium on issue of shares.
- ii. Premium on issue of debentures.
- iii. Profit on redemption of debentures.
- iv. Profit on sale of fixed assets.

Irredeemable Debentures are those debentures that are not repayable or redeemable by a company during its life time. These are repayable only at the time of winding up of the company. These are also known as Perpetual Debentures that means debentures having indefinite life. In India, now days, no company can issue irredeemable debentures.

Question 8:

What is a 'Convertible Debenture'?

Answer:

Convertible Debentures are those debentures that can be converted into equity shares after a specified period of time. These are of following two types:

- i. Fully Convertible Debentures: When the whole amount of a debenture is convertible into equity shares worth of equivalent amount, then these debentures are called Fully Convertible Debentures. There is no need to maintain Debenture Redemption Reserves for such debentures.
- ii. Partly Convertible Debentures: When only a part of the amount of a debenture is convertible into equity share, then these debentures are called Partly Convertible Debentures. In this regards, the Debenture Redemption Reserve is maintained only for the non-convertible part of the debenture.

Question 9:

What is meant by 'Mortgaged Debentures'?

Answer:

Mortgaged Debentures are those debentures that are secured against asset/s of a company. These are also known as secured debentures. If the debentures are secured against a particular asset, then it is called fixed charge whereas, if the debentures are secured against all the assets of a company, then it is called floating charge. In case the company fails to pay back the principal amount of debenture or fails to meet its interest obligations on the due date, then the debenture holders have the right to sell the mortgage asset in order to realise their amount due to the company.

Question 10:

What is discount on issue of debentures?

Answer:

When the debentures are issued at a price below its par value or face value, then it is said that the debentures are issued at discount. The difference between the issue price and the face value of the debenture is regarded as a capital loss.

As per the Revised Schedule VI of the Companies Act, Discount on Issue of Debentures is shown in the Notes to Accounts:

- 1. With the amount that is to be written off *within 12 months* from the date of Balance Sheet Shown under *Other Current Assets*
- 2. With the amount that is to be written off *after 12 months* from the date of Balance Sheet Shown under *Other Non-Current Assets*

Question 11:

What is meant by 'Premium on Redemption of Debentures'?

Answer:

When the debentures are redeemed at a price more than its face value or the par value, then it is said that the debentures are redeemed at premium. The difference between the redeemed price and the par value is regarded as a capital loss and this loss is written off till the redemption of the debentures. The Premium on Redemption of Debenture is shown in the Notes to Accounts under the sub-head of 'Other Long-term Liabilities'. The final balance is shown under the main head of 'Non-Current Liabilities' on the Equity and Liabilities side of the Company's Balance Sheet.

Accounting Treatment for Premium on Redemption on Debentures:

1. At the time of the Issue of Debenture:

Basis of Comparisons	Debentures	Shares	
Answer:			
How are debentures different from shares? Give two points.			
Question 12:			
(Amount of debentures due to debentureholders)			
To Debenturehol	der A/c		
Premium on Redemption A/c Dr.			
Debenture A/c	Ι	Or.	
2. At the time of Redem	ption of Debentures:		
(Debenture issued with premium)	n the term of redemption at		
To Premium on R	Redemption		
To Debenture A/o	;		
Loss on Issue of Deber	nture A/c D	r.	
Bank/Debenture Allott	ment A/c D	r.	

1. Meaning	Debentures are a part of loan, therefore, the debenture holders are the creditors of a company.	Shares form a part of capital, hence, share holders are the owner of a company.
2. Voting Rights	These do not carry any voting rights for their holders.	These carry voting rights for their holders.

Question 13:

Name the head under which 'discount on issue of debentures' appears in the Balance Sheet of a company.

Answer:

Discount on Issue of Debentures is regarded as a capital loss. As per the Revised Schedule VI of the Companies Act, Discount on Issue of Debentures is shown in the Notes to Accounts:

- 1. With the amount that is to be written off *within 12 months* from the date of Balance Sheet Shown under *Other Current Assets*
- 2. With the amount that is to be written off *after 12 months* from the date of Balance Sheet
- Shown under Other Non-Current Assets

Question 14:

What is meant by redemption of debentures?

Answer:

Redemption of debenture means repayment of debentures by the company to the debenture holders. In other words, it implies the discharge of liabilities by repaying the

amount due to the debenture holders as per the terms and conditions determined at the time of issue of debentures. Debentures may be redeemable at par, premium or discount, but, nowa days, these are mostly redeemable at par or premium. The redemption can be done out of profits or from the fresh issue of debentures or shares. Redemption of debentures may be done by the following methods:

- 1. In lump sum at the time of maturity,
- 2. In instalments by draw of lots at the end of each year,
- 3. By purchase in open market whenever price is below its face value,
- 4. By converting debentures into shares or new debentures.

Question 15:

Can the company purchase its own debentures?

Answer:

Yes, a company can purchase its own debentures provided it is authorised by its Article of Association. As per the Company Act, if a company is authorised by its Article of Association, only then it may purchase its own debentures from the open market. The main purposes of such purchase are as follows:

- 1. For immediate cancellation of debenture liability, if the interest rate on its debenture is higher than the market rate of interest.
- 2. A company may also purchase its own debentures with the motive of investment and sell them at higher price in future and thereby earn profit.

Question 16:

What is meant by redemption of debentures by conversion?

Answer:

When a debenture holder can convert his/her debentures into shares or new debentures after the expiry of a specified period of time, then it is known as redemption of debentures by conversion. As the company do not need to pay any funds for the redemption, so there is

no need to maintain the Debenture Redemption Reserve (DRR). The new shares or debentures may be issued at par, premium or at discount.

Question 17:

How would you deal with 'Premium on Redemption of Debentures'?

Answer:

When the debentures are redeemed at a price more than its face value or the par value, then it is said that the debentures are redeemed at premium. The difference between the redeemed price and the par value is regarded as a capital loss and this loss is written off till the redemption of the debentures. The Premium on Redemption of Debenture is shown in the Notes to Accounts under the sub-head of 'Other Long-term Liabilities'. The final balance is shown under the main head of 'Non-Current Liabilities' on the Equity and Liabilities side of the Company's Balance Sheet.

D.,

Accounting Treatment for Premium on Redemption on Debentures:

1. At the time of the Issue of Debenture: Pank/Debenture Alletment A/a

Bank/Debenture Anothent A/C	DI.
Loss on issue of Debenture A/c	Dr.
To Debenture A/c	
To Premium on Redemption	
(Debenture issued with the term of redemption at	
premium)	
2. At the time of Redemption of Debentures:	
Debenture A/c	Dr.
Premium on Redemption A/c	Dr.
To Debenture Holder A/c	

(Amount of debentures due to debenture holders)		
Question 18:		
What is meant by 'Redemption out of Capital?		
Answer:		
When debentures are redeemed out of capital and no profits are utilised for redemption, then such redemption is termed as redemption out of capital. In such a situation, no profits are transferred to the Debenture Redemption Reserve. As per the guideline laid down by Securities and Exchange Board of India (SEBI) and the Section 117C of Company Act of 1956, the creation of Debenture Redemption Reserve is mandatory (DRR). Therefore, it is not possible to redeem debentures purely out of capital, as it reduces the value of assets. The following companies are exempted from the creation of DRR. I. Infrastructure companies (i.e. those companies that are engaged in the business of developing, maintaining and operating infrastructure facilities)		
2. A Company that issues debentures with a maturity up to 18 months The following are the necessary Journal entries that need to be passed, in case the debentures are redeemed out of capital. a. If debentures are redeemed out of capital at Par		
Debenture A/c Dr.		
To Debenture holder A/c		
(Amount of debentures due to debenture holders)		

Debenture holder A/c	Dr.
To Bank A/c	
(Amount of debentures paid to debenture ho	lders)
b. If debentures are redeemed out of capit	al at Premium
Debenture A/c	Dr.
Premium on Redemption A/c	Dr.
To Debenture holder A/c	
(Amount of debentures due to debenture hol	ders)
Debenture holder A/c	Dr.
To Bank A/c	
(Amount of debentures paid to debenture ho	lders)
Question 19:	
What is meant by redemption of debenture	s by 'Purchase in the Open Market'?
Answer:	

According to the Company Act, if a company is authorised by its Article of Association, only then it may purchase its own debentures from the open market. The main purpose of such purchase is as follows:

- 1. For immediate cancellation of debenture liability, if the interest rate on its debenture is higher than the market rate of interest.
- 2. A company may also purchase its own debentures with the motive of investment and sell them at higher price in future and thereby earn profit.

Question 20:

Under which head is the 'Debenture Redemption Reserve' shown in the Balance Sheet?

Answer:

As per the Revised Schedule VI, Debenture Redemption Reserve (DRR) is shown in the Notes to Accounts of Reserve and Surplus. The final balance after adding DRR, is shown as the sub-head 'Reserves and Surplus' under the main head of Shareholders' Funds on the Equity and Liabilities side of the Company's Balance Sheet.

Long Answer Questions

Question 1:

Explain the different types of debentures?

Answer:

Debentures are issued by a company for acquiring long-term borrowings.

They can be classified on the following basis.

1. On the basis of Security

- a. *Secured Debentures* Mortgaged Debentures are those debentures that are secured against asset/s of a company. These are also known as secured debentures. In case the company fails to pay back the principal amount of debenture or fails to meet its interest obligations on the due date, then the debenture holders have the right to sell the mortgaged asset in order to realise their amount due to the company.
- b. *Unsecured Debentures* These debentures are treated as unsecured creditors. They do not have any security. These are uncommon now days.

2. On the basis of Tenure

- a. *Redeemable Debenture* These debentures are payable after the expiry of a specific period. These debentures can be redeemed at par or premium either in lump sum or in installment. Generally all debentures are redeemable.
- b. *Irredeemable Debenture* Irredeemable Debentures are those debentures that cannot be repayable or redeemable by a company during its life time. These are repayable only at the time of winding up of the company. These are also known as Perpetual Debentures that means debentures having indefinite life. In India, now days, no company can issue irredeemable debentures.

3. On the basis of Mode of Redemption

- a. *Convertible Debentures* Convertible Debentures are those debentures that can be converted into equity shares after a specified period of time. These are of following two types:
 - i. *Fully Convertible Debentures*: When the whole amount of a debenture is convertible into equity shares of equivalent amount, then these debentures are called Fully Convertible Debentures. There is no need to maintain Debenture Redemption Reserves for such debentures
 - ii. *Partly Convertible Debentures*: When only a part of the amount of a debenture is convertible into equity shares, then these debentures are called Partly Convertible Debentures. In this regards, the Debenture Redemption Reserve is maintained only for the non-convertible part of the debenture.
- b. *Non-Convertible Debenture* These debentures cannot be converted into shares. Generally debentures are non convertible.

4. On the basis of Coupon Rate

- a. **Zero Coupon Rate** These debentures do not contain a specific rate of interest and can be issued at discount. The excess of the face value of the debenture over its issue price is considered as interest amount.
- b. *Specific Rate-* These debentures carry a specific rate of interest which may be fixed or floating.

5. On the basis of Registration

- a. *Registered Debenture* While issuing such debentures, the company maintains a record regarding name, address and number of holding of debentures in the Register of Debenture Holders of the company.
- b. *Bearer Debentures* When a company does not maintain any record of the debenture holders and the debenture is transferable mere by delivery, then the type of the debenture held by the holders is termed as Bearer Debenture. Interests on such debentures are paid to the persons who produce the interest coupons that are attached with these debentures in a specified bank.

Question 2:

Distinguish between a debenture and a share. Why is debenture known as loan capital? Explain.

Answer:

Basis of Difference	Shares	Debenture
1. Owner or Creditor	Share holders are the owners since shares forms a are part of owned capital	Debenture holder are Creditors since debentures are a part of loan
2. Voting Rights	Share holders have the voting rights	Debenture holders do not have any voting rights.
3. Returns	Share holders are entitled for returns in the form of dividend.	Debenture holders are entitled for returns in the form of interest.
4. Rate of Return	The rate of dividend is not fixed and varies from year to year.	The rate of interest is fixed and do not vary from year to year.
5. Obligations of Return	Dividend is appropriation of profit. Dividend will not be paid if losses are incurred by the company	Interest is charged against profit, interest is payable even if there is no profit.

6. Repayment of Amount	The amount of share is not returned during the life time of the company	The amount of debenture is returned according to the term of issue.
7. Issue	The issue of shares at discount need adherence to the restrictions imposed by the Section 79 of the Company Act.	There are no such restrictions for issuing debentures on discount.
8. Conversion	Shares cannot be converted into debentures.	Debentures can be converted into shares.
9. Risk	Shares are more risky than debenture as these are unsecured.	If debentures are secured against asset, the risk involved is the minimal.
10. Repayment Priority	Payment to the share holders is made after settlement of all external liabilities, i.e. after debenture holders.	Payment to the debenture holders is made before the share holders.

Issue of debentures implies incurring long-term indebtedness. Generally, a company issues debentures for acquiring long-term borrowings to achieve its long-run targets and growth. Like the owner's capital, interest is also payable on the principal amount of the debenture. The interest paid is regarded as an expense for the company and is deductible under Income Tax Act. Therefore, debentures are also known as loan capital because they are redeemable after a long period of time.

Question 3:

Describe the meaning of 'Debenture Issued as Collateral Securities'. What accounting treatment is given to the issue of debentures in the books of accounts?

Answer:

The term collateral security means additional or secondary security in addition to the primary security. Sometimes, when a company takes loan from a financial institution, then besides the primary security, the company may issue debenture for additional security (as collateral security). The lender who receives debenture as collateral security is not entitled for interest on these debentures. If any default is made by the company in paying back the principal amount (i.e. the loan amount) or interest on the loan, then the lender has the full right to recover his/her dues from the sale of primary security. But, if the primary security is not sufficient to recover the amount of debt, then the debentures issued as collateral may be used for recovery of the remaining amount.

Accounting Treatment

There are two ways to record issue of debentures as collateral security:

1. No Entry

As no liability has been created so no Journal entry is recorded in the books of account. As per the Revised Schedule-VI of the Companies Act, the issue of debenture as collateral security is shown as a Long-Term Borrowings under the heading of Non-Current Liabilities on the Equity and Liabilities side of the Balance Sheet. In the Notes to Accounts of Long-Term Borrowings, the Loan so taken is shown. And in the Notes to Accounts of Cash and Cash Equivalents, the amount of loan so received (in cash) is shown. This can be better understood with the help of the below explained example.

Example- Suppose Best Bus Ltd. issued 4,000 9% Debentures of Rs 100 each as collateral security to NBP bank for a loan of Rs 3,00,000.

Best Bus Ltd.

Balance Sheet

Particulars	Note No.	Amount (Rs)
I. Equity and Liabilities		
1. Shareholders' Funds		

Non-Current Liabilities a. Long-Term Borrowings	1	3,00,000
3. Current Liabilities		
Total		3,00,000
II. Assets		
1. Non-Current Assets		
2. Current Assets		
a. Cash and Cash Equivalents	2	3,00,000
Total		3,00,000

NOTES TO ACCOUNTS

Note No.	Particulars	Amount (Rs)
1	Long-Term Borrowings	

	Loan (Secured by issue of 9% Debentures of Rs 4,00,000 as Collateral Security)	3,00,000
2	Cash and Cash Equivalents Cash at Bank	3,00,000

2. By Making Entry

In order to record the issue of debentures as collateral security, the following necessary Journal entries are made in the books of account.

At the time of Issue of Debentures as Collateral Security

Debenture Suspense A/c

Dr.

To Debenture A/c

(Debentures issued as collateral security)

In this case, as per the Revised Schedule VI of the Companies Act, Debentures so issued as collateral security will be shown as Long-Term Borrowings under the head of Non-Current Liabilities of the Equity and Liabilities side of the Company's Balance Sheet. Unlike Method-1, in this method, Debentures Suspense Account is deducted from the Debentures Account in the Notes to Accounts of Long-Term Borrowings.

Best Bus Ltd.

Balance Sheet

Particulars	Note No.	Amount
		(Rs)

I. Equity and Liabilities		
1. Shareholders' Funds		
2. Non-Current Liabilities		
a. Long-Term Borrowings	1	3,00,000
3. Current Liabilities		
Total		3,00,000
II. Assets		
1. Non-Current Assets		
2. Current Assets		
a. Cash and Cash Equivalents	2	3,00,000
Total		3,00,000

Note No.	Particulars	Amount (Rs)
1	Long-Term Borrowings Secured:	
	Loan (Secured by issue of 9% Debentures of Rs 4,00,000 as Collateral Security)	3,00,000
	9% Debentures (Issued as Collateral Security to Bank against loan) 4,00,000	
	Less: Debenture (4,00,000) Suspense Account	-
		3,00,000
2	Cash and Cash Equivalents	
	Cash at Bank	3,00,000

Question 4:

How is 'Discount on Issue of Debentures' treated in the books of accounts? How will you deal with the 'discount in issue of debentures' when the debentures are to be redeemed in instalments?

Answer:

When the debentures are issued at a price below its par value or face value, then it is said that the debentures are issued at discount. The difference between the issue price and the face value of the debenture is regarded as a capital loss. As per the Revised Schedule VI of the Companies Act, Discount on Issue of Debentures is shown in the Notes to Accounts:

- 1. With the amount that is to be written off *within 12 months* from the date of Balance Sheet Shown under *Other Current Assets*
- 2. With the amount that is to be written off *after 12 months* from the date of Balance Sheet Shown under *Other Non-Current Assets*

Accounting Treatment

For example, if a company has issued 10% debentures of Rs 6,00,000 at 5% discount redeemable annually by Rs 2,00,000 each year. The total amount of discount on Rs 6,00,000 debentures @ 5% is Rs 30,000, i.e. $(6,00,000 \times 5/100 = \text{Rs } 30,000)$. The accounting treatment for discount on issue of debentures(if it is to be written-off in 5 years) is:

```
Year 1: Amount to be written-off each year = 30,000 ×

1
5
=6,000
```

30.000 × 15=6.000 - Shown in **Statement of Profit and Loss**

Amount to be written-off in the next year = 6,000 - Shown as *Other Current Asset* under *Current Assets*

Remaining Amount to be written-off after next year =

30,000 - 6,000 - 6,000= 18,000

30,000 - 6,000 - 6,000= 18,000 - Shown as Other Non-Current Asset under

Non-Current Assets

Statement of Profit and Loss

for year ended...

S.	Particulars	Note	Amount
No.		No.	
I	Revenue from Operations		
II	Other Income		
III	Total Revenue (I + II)		
IV	Expenses:		
	Amortisation Expenses (Discount on issue of		6,000
	debentures written-off)		

	Extract of Balance Sheet	
	as on March 31, 2013	
Particulars	Note No.	Amount (Rs)
II. Assets		
1. Non-Current Assets		
(e) Other	1	18,000
Non-Current Assets		
2. Current Assets		
(f) Other Current	2	6,000
Assets		

NOTES TO ACCOUNTS

Note	Particulars	Amoun	
No.		t	
		(Rs)	
1	Other Non-Current Assets		
	Discount of Issue of Debentures	18,000	
2	Other Current Assets		
	Discount of Issue of Debentures	6,000	

Year 2

Amount to be written-off = 30,000 ×

=6,000

30,000 × 15=6,000 - Shown in Statement of Profit and Loss

Amount to be written-off in the next year = 6,000 - Shown as *Other Current Asset* under *Current Assets*

Remaining Amount to be written-off after next year =

18,000 - 6,000 = 12,000

18,000 - 6,000 = 12,000 - Shown as *Other Non-Current Asset* under *Non-Current Assets*

At the end of Year 5, the amount of discount on issue of debentures will be completely written off.

Question 5:

Explain the different terms for the issue of debentures with reference to their redemption.

Answer:

The different terms for the issue of debentures with reference to their redemption can be the combinations of at par, at premium and at discount. Normally, the debentures are not redeemable at discount. The permutation and the combination of the various terms of issue and redemption of debentures give rise to following six situations:

- 1. Issue at Par, Redeemable at Par.
- 2. Issue at Premium, Redeemable at Par.
- 3. Issue at Discount, Redeemable at Par.
- 4. Issue at Par, Redeemable at Premium.
- 5. Issue at Premium, Redeemable at Premium.
- 6. Issue at Discount Redeemable at Premium.
- 1. **Issue at Par and Redeemable at Par-** When the debentures are issued and are redeemed at their face value, then the following Journal entry is passed.

Bank A/c Dr. (with the amount received)

To Debenture Application A/c (with the face value)

(Debenture Application money received))
Debenture Application A/c	Dr.
To Debenture A/c	
(Application money transferred to Deber	nture Account)
	t Par- When the debentures are issued at premium and Journal entry is passed. As premium is a gain for a stry.
Bank A/c	Dr.

premium)	

Question 6:

Differentiate between redemption of debentures out of capital and out of profits.

Answer:

Redemption of Debentures Out of Capital

When debentures are redeemed out of capital and no profits are utilised for redemption, then such redemption is termed as redemption out of capital. In such a situation, no profits are transferred to the Debenture Redemption Reserve (DRR).

As per the guideline laid down by Securities and Exchange Board of India (SEBI) and the Section 117C of Company Act of 1956, the creation of DRR is mandatory (DRR). Therefore, it is not possible to redeem debentures purely out of capital, as it reduces the value of assets. The following companies are exempted from the creation of DRR.

- 1. Infrastructure companies (i.e. those companies that are engaged in the business of developing, maintaining and operating infrastructure facilities)
- 2. A Company that issues debentures with a maturity up to 18 months

Redemption of Debenture Out of Profits

When debentures are redeemed out of profit then no capital is utilised for redemption. Before redeeming the debentures profits are transferred to DRR from Profit and Loss Appropriation Account. The creation of DRR is mandatory as per the guidelines laid down by Securities and Exchange Board of India (SEBI). SEBI mandates transferring amount equal to 50% of debentures issued to DRR before redeeming debentures. In this method, as profits are transferred to the DRR Account, thereby reducing the total amount of profits, therefore this method is termed as Redemption of Debentures Out of Profits. In this method, first of all, the required profits are transferred from Statement of Profit and Loss to the DRR Account. The working of which is shown in the Notes to Accounts of Reserves and Surplus (as prescribed in Revised Schedule VI). The final balance (after considering DRR) is shown as the sub-head 'Reserves and Surplus' under the main head of Shareholders' Funds on the Equity and Liabilities side of the Company's Balance Sheet. Lastly, when all the debentures are redeemed, then DRR account is closed by transferring its amount to the General Reserve.

Question 7:

Explain the guidelines of SEBI for creating Debenture Redemption Reserve.

Answer:

The following are the main points of SEBI's guidelines for creation of Debenture Redemption Reserve (DRR).

- 1. Every company that issues debentures with a maturity of more than 18 months shall create DRR.
- 2. An amount equal to 50% of debenture issued shall be transferred to DRR before starting redemption of debentures.
- 3. Creation of DRR is applicable only for Non-Convertible Debentures and for non-convertible part of Partly Convertible Debentures.
- 4. Any withdrawal from DRR is allowed only after 10% of debentures are redeemed.

Thus, as per the SEBI's guidelines, 50% of the debentures issued should be redeemed out of the profits that are transferred to DRR and the remaining 50% of the debentures issued can be redeemed either out of profits or out of capital. Hence, no company can redeem all the debentures issued purely out of the capital.

As per the SEBI's guidelines the following companies are exempted from the creation of DRR.

- 1. Infrastructure companies (i.e. those companies that are engaged in the business of developing, maintaining and operating infrastructure facilities)
- 2. A Company that issues debentures with a maturity up to 18 months

Question 8:

Describe the steps for creating Sinking Fund for redemption of debentures.

Answer:

The various steps involved in the creation of Sinking Fund for redemption of debentures can be better understood by the help of the example explained below.

A Company issued 10% Debentures of Rs 5,00,000 for 3 years. The investment is expected to earn 6% p.a. The Sinking Fund table shows that 0.31411 invested annually at 6% amount to Rs 1 in 3 years.

Step 1: Calculate the amount of instalment to be required every year for investment with the help of the Sinking Fund table. Like in the example Rs 1,57,055 (i.e. 0.31411 × 5,00,000) is required every year.

Step 2: The amount of instalment calculated in the above step is transferred to the Debenture Redemption Fund (Sinking Fund) by debiting from Profit and Loss Appropriation Account.

Step 3: In the first year, the above instalment is invested to yield amount required for redemption of debenture by debiting Debenture Redemption Fund Investment Account.

Step 4: The interest on investment is received on half yearly or annual basis. In the

example, the interest of Rs 9,423 is received on annual basis. $\left(1,57,055 \times \frac{6}{100} = \text{Rs } 9,423\right)$

Step 5: The total amount of investment, i.e. interest plus instalment is invested in the subsequent year. In the example, Rs 1,66,478 (i.e. Rs 1,57,055 + Rs 9,423) is invested in the next year.

Step 6: Repeat the Step 2, 3, 4 for each subsequent years up to the end of the life of the debenture. In the year of redemption, the instalment (i.e. the last instalment) will be debited to the Profit and Loss Appropriation Account but will not be invested.

Step 7: In the year of redemption, the investment is sold off.

Step 8: The profit (loss) on the sale of the investment is transferred by debiting (crediting) Debenture Redemption Fund Investment Account to the Debenture Redemption Fund Account.

Step 9: The payment to the debenture holder is made.

Step 10: The balance of Debenture Redemption Fund Account *if any*, is transferred to the General Reserve.

Question 9:

Can a company purchase its own debentures in the open market? Explain.

Answer:

Yes, a company can purchase its own debentures provided it is authorised by its Article of Association. As per the Company Act, if a company is authorised by its Article of Association, only then it may purchase its own debentures from the open market. The main purposes of such purchase are as follows:

- 1. For immediate cancellation of debenture liability, if the interest rate on its debenture is higher than the market rate of interest.
- 2. A company may also purchase its own debentures with the motive of investment and sell them at higher price in future and thereby earn profit.

A company may purchase its own debentures at discount or at premium for cancellation.

1. If Debentures are purchased at Discount for Cancellation

(Own debentures cancelled)

When the company purchases its own debentures at discount for cancellation, then the following Journal entries are recorded.

To Own Debentures A/c	
(Own Debentures cancelled)	

Question 10:

What is meant by conversion of debentures? Describe the method of such a conversion.

Answer:

When a debenture holder can convert his/her debentures into shares or new debentures after the expiry of a specified period of time, then it is known as redemption of debentures by conversion. As the company does not need to pay any funds for the redemption, so there is no need to maintain Debenture Redemption Reserve (DRR). The new shares or debentures may be issued at par, premium or at discount.

If a debenture holder exercises the conversion option, then the issue price of shares must be equal to or less than the amount actually received from debentures.

Question 14:

A.Ltd. issued 50,00,000, 8% Debenture of Rs 100 at a discount of 6% on April 01, 2009 redeemable at premium of 4% by draw of lots as under:

20,00,000 Debentures on March, 2011

10,00,000 Debentures on March, 2013

20,00,000 Debentures on March, 2014

Compute the amount of discount to be written-off in each year till debentures are paid. Also prepare discount/loss on issue of debenture account.

Answer:

Loss on issue of debenture = 6% (discount on issue) + 4% (premium on redemption) = 10%

At the end of	Debenture Outstanding	Ratio	Loss to be written off every year
March 2010	50,00,00,000	5	= 1,38,88,889
March 2011	50,00,00,000	5	= 1,38,88,889
March 2012	30,00,00,000	3	= 83,33,333
March 2013	30,00,00,000	3	= 83,33,333
March 2014	20,00,00,000	2	= 55,55,556
		18	Rs 5,00,00,000

Question 15:

A company issues the following debentures:

- (i) 10,000, 12% debentures of Rs 100 each at par but redeemable at premium of 5% after 5 years;
- (ii) 10,000, 12% debentures of Rs 100 each at a discount of 10% but redeemable at par after 5 years;
- (iii) 5,000, 12% debentures of Rs 1,000 each at a premium of 5% but redeemable at par after 5 years;
- (iv) 1,000, 12% debentures of Rs 100 each issued to a supplier of machinery costing Rs 95,000. The debentures are repayable after 5 years; and

(v) 300, 12% debentures of Rs 100 each as a collateral security to a bank which has advanced a loan of Rs 25,000 to the company for a period of 5 years.

Pass the journal entries to record the: (a) issue of debentures; and (b) repayment of debentures after the given period.

Answer:

In the books of

Journal

a) Issue of Debentures

S. No.	Particulars		L.F.	Debit Amount Rs	Credit Amount Rs

(Debenture and debenture Suspense Account closed)		

Question 16:

A company issued debentures of the face value of Rs 5,00,000 at a discount of 6% on April 01, 2012. These debentures are redeemable by annual drawings of Rs,1,00,000 made on March 31 each year. The directors decided to write off discount based on the debentures outstanding each year.

Calculate the amount of discount to be written-off each year. Give journal entries also.

Answer:

Journal

Date	Particulars		Debit	Credit
			Amount	Amount
			Rs	Rs
2012				
Apr 1	Bank A/c D	r.	4,70,000	

	To Debenture Application and Allotment A/c		4,70,000
	(Debenture Application money received)		
Apr 1	Debenture Application and Allotment Dr. A/c	4,70,000	
	Discount on Issue of Debenture A/c Dr.	30,000	
	To Debentures A/c		5,00,000
	(Debenture Application money transferred to Debenture Account)		

Assuming that the amount of discount on issue of debentures is to be written off in 5 years.

Year	Debenture outstanding	Ratio	Amount written off
2012	5,00,000	5	= 10,000
2013	4,00,000	4	= 8,000

Question 18:

B. Ltd. issued debentures at 94% for Rs 4,00,000 on April 01, 2011 repayable by five equal drawings of Rs 80,000 each. The company prepares its final accounts on March 31 every year.

Indicate the amount of discount to be written-off every accounting year assuming that the company decides to write-off the debentures discount during the life of debentures. (Amount to be written-off: 2012 Rs 8,000; 2013 Rs 6,400; 2014 Rs 4,800; 2015 Rs 2,000; 2016 Rs 1,600).

Answer:

Amount of discount to written off every year

In 2012 = ₹8,000

In 2013 = ₹6,400

In 2014 = ₹4,800

In 2015 = ₹3,200

Working Notes:

Apr-M ar	80,000	2	12	24	24,000 × 24 180 = ₹3,200 24,000×24180=₹3,200
2016					

Apr-M	80,000	1	12	12	24,000
ar					×
					12
					180
					=
					₹1,600
					24,000×12180=₹1,600
				180	

<u>Note</u>: As per NCERT, ₹2,000 discount has been written off in the year 2015 which is incorrect because then the total discount amounts to ₹22,800. Therefore, it should be ₹3,200.

Question 19:

B. Ltd. issued 1,000, 12% debentures of Rs 100 each on April 01, 2014 at a discount of 5% redeemable at a premium of 10%.

Give journal entries relating to the issue of debentures and debentures interest for the period ending March 31, 2015 assuming that interest is paid half yearly on September 30 and March 31 and tax deducted at source is 10%.

Answer:

Date	Particulars	L.F.	Debit	Credit
			Amount	Amount Rs
			Rs	

2014				
Apr. 01	Bank A/c	Dr.	95,000	
	Loss on Issue on Debentures A/c	Dr.	15,000	
	To 12% Debenture A/c			1,00,000
	To Premium on Redemption of Debentures A/c			10,000
	(Debenture issued at discount and redeer at Premium)	mable		
Sept. 30	Debenture Interest A/c	Dr.	6,000	
	To Income Tax Payable A/c			600
	To Debenture Holders A/c			5,400
	(Amount of interest on 12% debentures 1,00,000 due for	Rs		
	6 months and 10% tax deducted at source	e)		
Sept. 30	Debenture Holders A/c	Dr.	5,400	

	To Bank A/c			5,400
	(Interest paid to Debenture Holders)			
2015				
2015				
Mar. 31	Debenture Interest A/c	Dr.	6,000	
	To Income Tax Payable A/c			600
	To Debenture Holders A/c			5,400
	(Amount of interest on 12% Debentures R 1,00,000 due for	LS		
	6 months and 10% tax deducted at source))		
Mar. 31	Debenture Holders A/c	Dr.		5,400
	To Bank A/c			5,400
	(Interest paid to Debenture Holders)			
Mar. 31	Profit and Loss A/c	Dr.	12,000	
	To Debenture Interest A/c			12,000

(Interest on debentures transferred to Profit and Loss Account)		

Question 20:

What journal entries will be made in the following cases when company redeems debentures at the expiry of period by serving the notice: (a) when debentures were issued at par with a condition to redeem them at premium; (b) when debentures were issued at premium with a condition to redeem that at par; and (c) when debentures were issued at discount with a condition to redeem them at premium?

Answer:

S.No.	Particulars		L.F.	Debit Amount Rs	Credit Amount Rs
(a)	Debenture A/c	Or.			
	Premium on Redemption of Debenture A/c	Or.			
	To Debenture Holders A/c				
	(Amount due for redemption of Debentures)			

I		
	Debenture Holders A/c	Dr.
	To Bank A/c	
	(Payment made to Debenture Holders)	
(b)	Debenture A/c	Dr.
	To Debenture Holders A/c	
	(Amount due for redemption of debenture that were issued at	S
	premium with term of redeemable at par)	
	Debenture Holders A/c	Dr.
	To Bank A/c	
	(Payment made to Debenture Holders)	
(c)	Debenture A/c	Dr.
	Premium on Redemption of Debenture A/c	Dr.
	To Debentures Holders A/c	

(Amount due for redemption on debethat were issued at discount with the term of redeemable premium)		
Debenture Holders A/c	Dr.	
To Bank A/c		
(Payment made to Debenture Holder	s)
